NGUYEN BINH DAM

VIDEO EDITOR CV

VIDEO EDITOR / CONTENT CREATOR

Long-form storytelling | YouTube content | AI-assisted production

PROFILE

Video editor and content creator focused on long-form, research-driven storytelling. Experienced in structuring narratives, refining pacing, syncing audio and visuals, designing thumbnails, and using AI-assisted workflows to speed up production. My biotechnology background adds a systematic, detail-oriented approach to research, organization, and iterative editing.

EXPERIENCE

Freelance Video Editor & Content Creator

Dec 2024 - Present

- Edit long-form digital content from research and rough structure through final delivery, with emphasis on clean pacing, narrative clarity, visual continuity, and viewer retention.
- Handle post-production including timeline trimming, precision cuts, subtitles, transitions, audio synchronization, color refinement, and visual asset integration in CapCut Pro.
- Create thumbnails and supporting graphics in Adobe Photoshop, and integrate AI tools for ideation, scripting support, text-to-speech, visual planning, and rapid content prototyping.

FEATURED PROJECT

Old Hollywood - Cinematic Retrospective

YouTube Long-form Documentary Series

3,000+
SUBSCRIBERS

350,000+
TOTAL VIEWS

First 3 months
TIMEFRAME

- Produced and edited 8-12 minute documentary-style videos using archival visuals, voice-over, music, and cinematic pacing.
- Led topic research, narrative structure, visual sequencing, thumbnail design, and audience-retention optimization.

SELECTED PROJECT

AI-Powered Animation & Scene Generation

Oct - Nov 2025

- Designed prompt-based scene sequences and tested AI video-generation workflows for coherent movement, environments, transitions, and conceptual animation.
- Integrated generated footage into traditional editing workflows, refining timing, audio, continuity, and final visual coherence in CapCut Pro.
